

**Are you a full-time student in fall & winter terms?**

**Do you have a 2018-2019 government loan or full Indigenous sponsorship?**

Are you interested in learning about water issues in First Nation communities? Please consider applying for this work-study position with H2O CREATE at the University of Manitoba.

**Duties:**

- Develop a poster (or other documents) showcasing CREATE H2O research
- Assist program co-ordinator to develop spreadsheets, search for student resources
- Other research and office duties as assigned

**Qualifications:**

- Full-time student in fall & winter terms
- Have a 2018-2019 government loan OR full Indigenous sponsorship
- Ideal candidate will be of **Indigenous descent** and studying in the fields of science, environment & geography, agriculture or engineering. Other fields of study that may be helpful for this position - Native studies, Indigenous languages, natural resources etc.
- Savvy with Microsoft Word, PowerPoint and Excel software
- Eagerness to learn about the issues that Indigenous peoples face in Canada, including colonialism
- Eagerness to learn about water issues in First Nation communities. E.g. hydro-related sediment and flooding, water-quality, mining, safe-drinking water, contaminants etc.

**Supervisor:** Wendy Ross, H2O program co-ordinator, Centre for Human Rights Research

**Pay rate:** \$13.50 per hour for 3 to 4 hours a week

Student application deadline: **September 12, 2018**
